

Business Tax Stories: An In Depth Look at the Ten Leading Corporate and Partnership Tax Cases and Code Sections (Stories Series) (Law Stories)

Business Tax Stories does not deal solely with judicial opinions. In the field of business taxation, many of the most significant developments are not cases, and certainly not Supreme Court cases, but rather legislative and administrative changes and transactional innovations. Business Tax Stories includes chapters on several landmark cases; however, it also surveys many of the critical developments in the history of U.S. corporate and partnership taxation. Taken as a whole, Business Tax Stories is organized to serve as a history of business taxation over the last century.
