

DEMOGARCHY: putting politics in its place

NUB. A country in need of stability needs to repose political power in people who dont care about politics. Take the multitude who do not attend the rallies, do not wear the T-shirts, do not shout the slogans and cannot spell ideology. Make them the flywheel of sane politics, the big inanimate force that imposes stability on the whirring busy parts. IS THAT ALL? Pretty much, but since you dont believe it there are more words inside, outlining in broad strokes the how-what-where-why. FOUR FAIR WARNINGS. Only open this book if you disbelieve politics is going so wrong so often while humans smarten up. Of 100 people who open it, 90 will abandon it. For every 10 who finish it, eight will weep that the theme is nowhere on the map. The other two will take trouble to put it on the map and want to throw up as the 98 increasingly claim, Oh, I was right behind that from the start, you know. THE AUTHOR started a career in law but wandered into mediaworld in numerous guises, including a magazine called Frontline and a screen programme called Becketts Trek. He has said for aeons that politics doesnt need to be tragicomedy, anywhere. Build it on the right foundation and you get reasonable results, anywhere. Nobody has paid much attention. Yet.
