

Essential Clinical Anesthesia Review: Keywords, Questions and Answers for the Boards

This concise, evidence-based board review book, organized according to the ABA keyword list, covers all the fundamental concepts needed to pass written and re-certification board examinations. Each chapter begins with a case scenario or clinical problems from everyday practice, followed by concise discussion and clinical review questions and answers. Discussion progresses logically from preoperative assessment and intraoperative management to postoperative pain management, enhancing the readers knowledge and honing diagnostic and clinical management skills. New guidelines and recently developed standards of care are also covered.
