

# First-Time Landlord: Your Guide to Renting Out a Single-Family Home

Here is Landlording 101 for new rental-property owners who are first-time landlords as a result of an inheritance, a divorce, a move to a new house, buying a duplex and renting out the extra unit, a purchase for a family member (an elderly parent or college-student child), or buying a rental property as an investment. Many listeners who could use this audiobook are not only first-timers but accidental landlords who took on the task because they inherited a property or couldn't sell their house at a decent price and so are renting it out. This book is for the millions of people who rent out single-family homes and condos (not multi-unit apartment buildings) while typically balancing a day job with landlording responsibilities. The intended audience is novice landlords who need basic business and legal advice on renting out and managing rental properties - a different audience from landlords who consider themselves professional real-estate investors.
