

The Trial: A Procedural Description and Case Study [Paperback]

From Preface - Not much written on the undergraduate level explains how the criminal justice system disposes of a case in which a defendant is accused. Although trial practice textbooks deal with the trial aspect of the court process, they emphasize courtroom strategy and preparation. This book presents the court procedures, explaining in some detail what actually happens to a defendant in a felony case at each stage of the court process. (Description by http-mart, Roy Schoenbeck)
