

Drugs and Desire

This tale takes us into the fascinating but little known world behind the scenes in British pharmacies and out onto a glittering global stage. That includes Delhi, Florence, London, Paris and Telegraph Cove. Agatha Christie, Tony Parsons and this author Malcolm E Brown all feature drugs. However, Malcolm E Brown is a pharmacist so he knows more about drugs. Many novels feature doctors and nurses but this is probably the first to feature pharmacists as heroes. The author is also a sociologist. That rare combination means that this novel sizzles.
