

## The Three Button Trick and Other Stories

Audacious, original, clever, poignant -- these are just a few words that describe the writing of Nicola Barker, a talented, award-winning author whose work brings to mind Martin Amis, Julian Barnes, and Margaret Atwood. Now nineteen of her finest short stories have been compiled into one brilliant, delightful readable volume. It takes young Carrie twenty-one years and a chance meeting with an eighty-three-year-old widow to realize she fell victim to her husband's Three Button Trick. The main character in Wesley must work through his troubled childhood in a series of episodes involving masses of eels, an imaginary friend named Joy, and an unmentionable incident with an emu-owl. From erotic encounters behind clothing racks to a kleptomaniac with his organs on the wrong side, this daring and gifted writer never fails to surprise us, entertain us, and make us think.
