

## Conflict Resolution in the Middle East: Simulating a Diplomatic Negotiation Between Israel and Syria (Perspectives Series)

Shortly before the Middle East peace talks began in November 1991, the United States Institute of Peace conducted a four-day simulation of what was about to unfold in the diplomatic dialogue between two enemy countries, Israel and Syria, whose representatives had never before sat together. This volume presents a description of that exercise and its implications for peacemaking and conflict resolution in the Middle East, a discussion of simulations and their utility for diplomats and for the field of conflict resolution, and a discussion among the participants of prospects for the overall Middle East peace negotiations.
